Getting America Back to Work

Jobbing America's Scholarships

Jobbing America trains job-seekers in the art of interviewing- to-win. Participants in our two-day workshop get jobs in less than half the time because we teach you how to articulate your message and value proposition during the interview. With a video camera in front of you and career coach at your side, you receive individual coaching as you learn exactly what to say and how to act and present yourself in the interview situation. See details at "Interview-To-Win Boot Camp Training" on our website.

- ✓ **Receive progressive video series of you working with your career coach**
- ✓ **85 Page "Interviewing Trail Guide Workbook" and iPower™ Mind**
- ✓ **Receive online behavioral assessment and build a memorable brand**

Our non-profit foundation raises funds to offer full and partial scholarships for interview skill training to job-seekers who need it the most and can afford it the least. The reason why our workshop is so successful is because the group is limited to 15 people so each person receives individual coaching and support. Individual and corporate sponsors help offset the costs of training for our job-seekers based on financial need of length of unemployment.
